# Aaryen DSouza

437-966-6119 | dsouza96@uwindsor.ca | linkedin.com/in/aaryendsouza | github.com/aaryen-dsouza | Portfolio

#### TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, C, SOL, HTML/CSS Databases: Oracle SQL, PostgreSQL, MySQL, MongoDB, PL/SQL

Data Manipulation & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Tableau, Power BI, (Learning) PySpark

Frameworks: React, Django, Redux, Node.js, Express, WordPress, Material-UI, Bootstrap, Tailwind CSS Dev Tools: Git, GitHub, Jupyter Notebook, Google Collab, VS Code, DataGrip, PyCharm, IDEA, Postman, Jira Other Skills: Windows, Linux/Unix (Ubuntu, CentOS), Shell Scripting, Microsoft Excel, Google Sheets

### PROFESSIONAL EXPERIENCE

**Software Engineer** | Oracle SQL, MS Excel, Python, Bash/Shell Scripting, Java, Linux, Jira Vermont Information Processing

Jul 2022 - Mar 2024 Mumbai, India

- Ensured data integrity by cleaning, preprocessing and validating data in Oracle SQL and MS Excel, fixing 95% of data quality issues, and providing detailed analysis reports for price plans, reimbursements and chargebacks.
- Reduced issue resolution time by 40% for 100+ customer-reported issues by performing in-depth root cause analysis (RCA) on legacy app server and Oracle database, leading to faster issue identification and customer satisfaction.
- Automated ETL workflows by implementing Bash/Shell scripts, optimizing data workflows, and reducing manual interventions by 20%, which led to streamlined data onboarding efficiency.
- Standardized data integration and system configuration documentation by creating clear process guides which reduced onboarding time for new team members by 25% and improved cross-team collaboration.

#### **PROJECTS**

**Loan Insights Dashboard** | Power BI, SQL, Data Visualization, Dashboard Design, Financial Analytics, Git Jan 2025 GitHub

- Developed an interactive loan data analysis dashboard using Power BI and SQL, enabling real-time insights into 5+ key financial metrics, borrower behavior, and loan performance, improving data accessibility for decision-makers.
- Enhanced data visualization and reporting by implementing 10+ KPI tracking, trend analysis, and loan classification, improving financial strategy planning.
- Optimized loan performance tracking by improving data processing and designing 3 interactive dashboards, enabling better risk assessment and lending pattern identification.

Predictive Caching for Web Pages | Python, Pandas, Matplotlib, Statsmodels, Scikit-learn, Git GitHub

Nov 2024

- - · Created a hybrid AI-driven caching system combining ARIMA for time-series forecasting and LLM for contextual analysis, improving cache efficiency and reducing latency in high-traffic scenarios.
  - Automated data preprocessing for 1M+ records, implementing normalization, and missing value imputation leveraging Python and Pandas, to guarantee reliable data for predictive models, and conducted exploratory data analysis (EDA) on 500K+ web traffic data to identify trends and visualize key insights with Matplotlib.
  - Built and optimized ARIMA models to forecast future page views, achieving high accuracy with RMSE values of 4.41 for ARIMA and 4.67 for Auto-ARIMA, and generated forecasts for the next 30 days.

Stress Level Prediction Using Machine Learning | Python, Pandas, Matplotlib, Seaborn, Scikit-learn, Git Nov 2024 GitHub

- Developed a stress prediction model for a mobile app by analyzing 20,500+ user behavior metrics, optimizing and training ML models on digital wellbeing data including screen time, game time, app usage, and social media activity.
- Refined data quality by implementing data preprocessing, encoding, and normalizing 7+ numerical features utilizing **Python** and **Pandas**, ensuring high-quality inputs for predictive modeling.
- Trained and enhanced model performance by optimizing **Random Forest** and **XGBoost** hyperparameters, increasing classification accuracy to 77%.

## **EDUCATION**

**University of Windsor** | Available for 4–8 month Co-op/Internship Starting May 2025

May 2024 - Present

Master of Applied Computing (Grade: 88.44%)

**University of Mumbai** 

Mumbai, India

Windsor, ON

Bachelor of Engineering - Computer Engineering (CGPA: 8.58/10)

Aug 2018 - May 2022
